

HYSTRIX

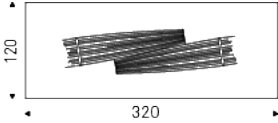

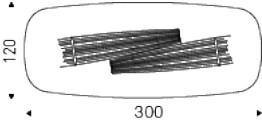

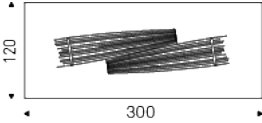

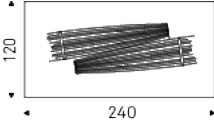

Product description

Table with transparent varnished steel base (OP0) and embossed graphite (GFM69) plates. Top in 15mm clear, extra clear or extra clear glass with reversed bevelled edges. The top is laid on the base. The finish of the base OP0 identifies a transparent coating on ferrous raw material. The presence of more or less obvious stains, colour variations, scratches and irregular edges is feature of the special material processing and should not be considered a defect.
