

trama

Ispirato dall'intricato intreccio dei tessuti, Trama combina la trasparenza e la purezza del vetro con la struttura sofisticata dei tubi dritti. Ogni elemento, meticolosamente lavorato, richiama la delicatezza dei fili intrecciati, creando un gioco di luci e ombre che danza nello spazio.

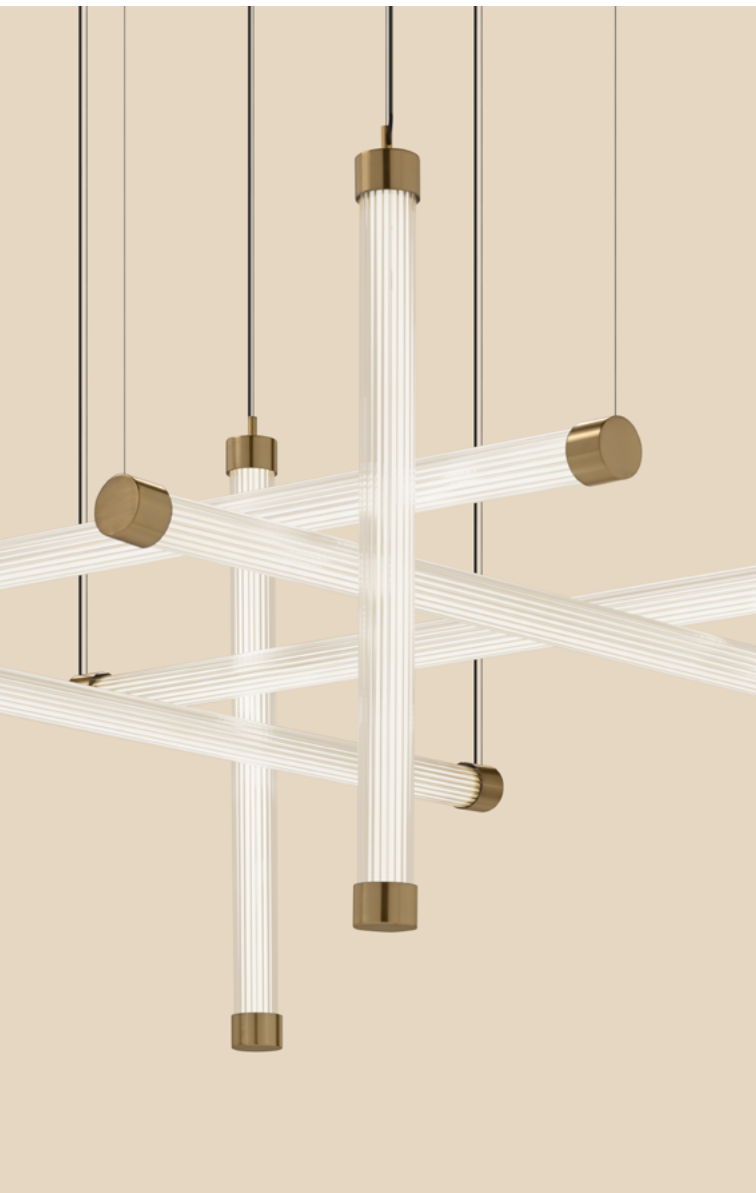

STUDIO IN PROJECT

Inspired by the intricate weaving of textiles, Trama combines the transparency and purity of glass with the sophisticated structure of straight tubes. Each meticulously crafted element recalls the delicacy of woven threads, creating a play of light and shadow that dances through space.

Particolari - Details

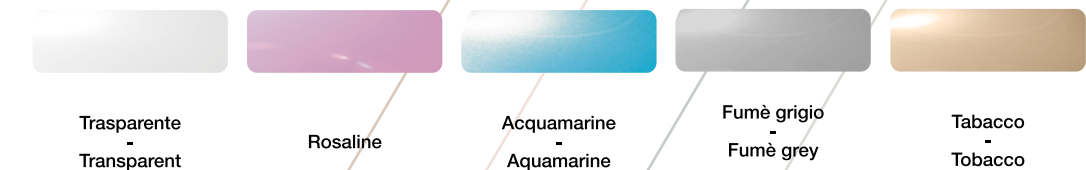

Trama è una collezione composta da elementi singoli in differenti lunghezze ma che affiancati possono strutturare progetti ad-hoc anche di estese dimensioni. Ricreano nell'aria una trama luminosa personalizzabile. Gli elementi di Trama sono in borosilicato trasparente o decorato e all'estremità sono inserite le bocche in alluminio tornito e le cover in metallo stampato. L'elemento luminoso è un Neonflex 360° ed illumina il tubo in borosilicato per tutta la sua lunghezza. Trama è già disponibile nelle misure indicate nei disegni. Per qualsiasi richiesta o differente versione non esitate a contattarci.

Trama is a collection made up of single elements in different lengths but which, when placed side by side, can create ad hoc projects even of large sizes. They recreate a customizable light pattern in the air. Trama's elements are made of transparent or colored borosilicate glass with turned aluminum bushings and molded metal covers at the ends. The light source is a 360° Neonflex, that lights up the borosilicate tube along its whole length. Trama is already available in the sizes shown in the drawings. Do not hesitate to contact us for any request or different version.
